

UNISON *Soft Pastels*

Unisons, the hand-made pastel of an artist's passion for true color and expression, have long been the premium pastel on the market. Its creamy texture, responsiveness in the hand, and rich pigmentation are the characteristics of a truly great pastel. Unison's full, rich, enduring color make it preferred above all others. Available in 354 colors in open stock and a variety of sets, Unison Pastels are a work of art before you ever use them.
